

Aggregate 360°

TECHNICAL WORKSHOPS

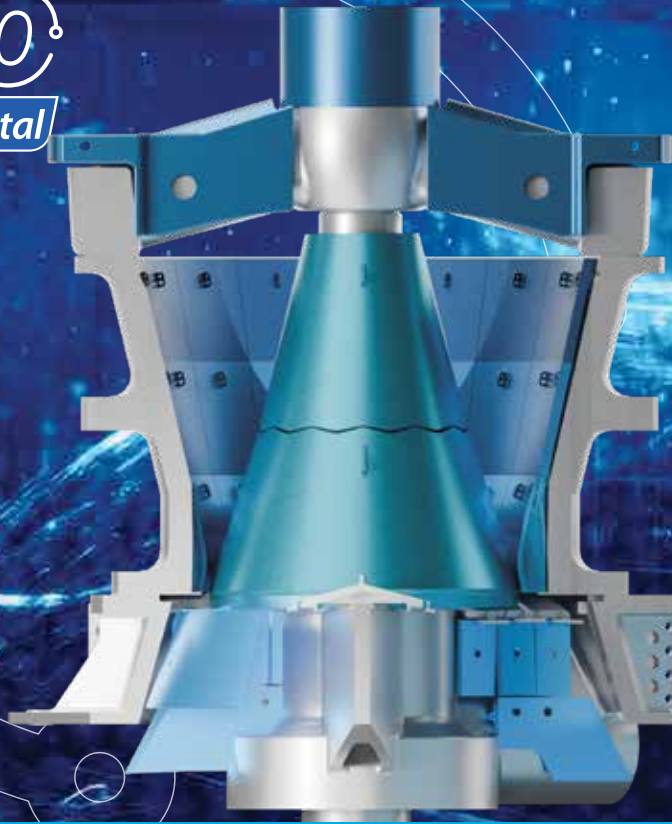

ME Elecmetal's Aggregate 360° Technical Workshops

A technical space designed for the aggregate industry to innovate, learn, and connect.

Schedule Training Today!

📍 Our team will come to you!

Discover Aggregate 360° Your On-Site Competitive Advantage

Our technical workshops bring hands-on learning directly to your team, wherever you operate. Equip your business with the tools, technologies, and strategies that matter most — delivered by the people who build them.

Training Topics Include:

- **Safety Innovations** – Partner-driven strategies and purpose-built safety tooling to reduce exposure and improve equipment handling and installation
- **Design & Optimization** – Application-specific solutions, quicker and easier than OEM
- **Latest Technology Tools**
 - **Wear Tracking** – Monitor and plan with real-time liner data
 - **QuickScan Crusher™** – Fast, precise crusher wear analysis
 - **3D Simulations** – Predictive modeling to optimize performance
- **Maintenance Strategies** – Extend life, reduce downtime, improve outcomes
- **Reverse Engineering** – Fast-turn, custom-fit wear parts designed for your needs
- **Materials & Manufacturing** – Seven manganese grades and diversified production capabilities
- **Product Quality** – Higher standards and longer wear life than the OEM
- **Diversified Manufacturing Capabilities** – Rubber products, apron feeders, blow bars, and more

Lead the Market with ME Elecmetal

Born in Mining. Built for Aggregate.

At ME Elecmetal, we don't just supply wear parts — we engineer performance. With the same grit that built our mining legacy, we now lead the aggregate market in speed, quality, and custom solutions that help distributors outperform OEMs.

- ✓ **Faster Solutions** – Velocity that drives results
- ✓ **Technology That Works** – Tools built to deliver insights, fast
- ✓ **Distributor-Focused** – Engineered to help you win more business
- ✓ **Support That Doesn't Disappear** – Backed by responsive teams and value-added training

Book your Aggregate 360° Workshop today and empower your team with the knowledge and solutions to go beyond the OEM.
